About Janice Tse-Hwa Tang, D.D.S.

Dr. Tang is a board-eligible, general practice dentist with nearly 20 years' experience.

She performs a wide range of dental services in children and adults, including general examinations, teeth cleaning, dental x-rays, dental fillings and crowns, tooth extraction, root canals, basic periodontal treatment, denture and bridge care, referrals and care coordination with specialists, and health education to promote oral health.

Dr. Tang's goal is to provide patients with the highest quality dental care possible, as well as to educate and inform them on how to achieve optimal dental health through preventative care.

When not working, Dr. Tang enjoys spending time with her husband, parents, and three boys. It doesn't matter if she travels with them to Disney World or if they just stay home for a movie night; as long as she's with them, she's happy.
